

Hello Fukas!

My name's Srey hang Barn, I'm 17 years old. I Study in grade 8. I have Seven family members. five boys and two girls and there are three Students in my family.

My family and I are very excited to hear that Fukas organization will support my Studying. It is a big part of expenses for my family. If I learn with out support and I won't finish with my Study I think because my family is very poor but now it is very lucky for me because I can finish my goal.

In the future I want to be a teacher and I'll try to study hard will not make you to get disappointed at me
